

A very powerful and wall mounted dehumidifier!

Wood's WPF100 is a powerful, wall mounted dehumidifier especially developed indoor pool rooms and other larger areas such as libraries, museums, offices, basements, and laundries. The WPF100 has an incredibly high capacity and is therefore perfect for large areas that demand rapid and efficient dehumidification without a noisy environment. This sturdy and wall mounted dehumidifier will quickly lower the humidity level in your pool room.

Wood's WPF100

This clever Wood's dehumidifier is developed especially for larger areas such as libraries, museums, offices, cellars, laundries or indoor swimming pool rooms. With its high capacity and quiet operation this dehumidifier is perfect for large areas that demand rapid and efficient dehumidification without a disruptive environment. The WPF100 is wall mounted and by placing the unit on the wall you lose no valuable space in, for example, offices or libraries. Connect a hose to the unit for continuous drainage, this way you never have to de-mount the dehumidifier and you are ensured quick and reliable operations.

Advantages:

- For laundry, basements, museums etc.
- Removes excess moisture and bad odour
- IP-rated for tough environments
- Exhaust on top blow-dries laundry
- Hose connection for direct drainage
- Automatic defrost
- Automatic restart after power failure
- Runs only when needed

Technical data

Max. pool surface area	48 m ²
Max. working area (no source of steam)	760 m ²
Capacity at 20°C & 60% RF	32 litres/day
Capacity at 32°C & 90% RF	98 litres/day
Air flow	800 m ³ /h
Power (at 20°C & 70% RH)	1390 W
Max power (at 35°C & 80% RF)	Max 1610 W
Sound level	49 dB
Working interval	+10°C to 35°C
Defrost	Electronic
Gas	R410A (850 g)
Dimensions (mm)	1218x737xv247
Weight	83 kg
IP Rating	IP22 (X2)
Fan speeds	1
