

Dehumidifier LD24

Wood's®

Easy-to-use, high-capacity drying room dehumidifier - Made in Sweden

Efficient base model - a dehumidifier especially suitable for quick drying of laundry.

The LD24 is an efficient and easy-to-use, high-capacity drying room dehumidifier. It fully dries the laundry while dehumidifying the entire basement. For every litre of water vapour, you get back 780W in pure heating power.

Easy control with manual knob

The LD24 is easy to use and is easily adjusted to the desired humidity with its manual knob. The desired level is easily selected by turning the knob, and the machine switches off automatically when the level is reached. If the humidity increases, the LD24 starts again.

Dehumidifies the entire basement while drying the laundry, quickly and efficiently

LD24 is more than a dehumidifier - it dries your laundry dry by taking advantage of the heat generated in the dehumidification process. Drying the laundry with a dehumidifier effectively counteracts the presence of mould, odours and mites in the basement, drying room, or laundry room. All LD models are designed to operate, "whisper quiet" (48-55 dB) on their low fan setting.

Swedish quality with 10 year guarantee

All dehumidifiers in the LD series are sturdy and durable, plus have a 10-year guarantee, provided that the filter is changed annually.

- Perfect dehumidifier for drying laundry
- Dehumidifies the entire laundry room or basement
- Dries laundry quickly and efficiently
- Adjustable exhaust directs the hot air
- Features an auto-restart function to previous settings in the event of a power cut
- Easy to connect to a hose (connector for 1/2" hose included)
- Removable 11.4 litre tank with convenient handle
- Made in Sweden from recyclable material
- Robust wheels for easy mobility
- 10 year warranty
- Environmentally friendly refrigerant R290
- Smart defrost with i-EcoDefrost
- Operating temperature range + 2°C to + 35°C
- Quiet operation (48-55 dB) on low fan setting
- Energy efficient
- IP-X1 Rating

Specification	LD24
Max. working area	80m ²
Recommended area	10-80m ²
Airflow step 1	200 m ³ /h
Capacity at 20°C & 70%RH	6,5 liter
Capacity at 30°C & 80%RH	12 liter
Power at 20°C & 70% RH	160 W
Power at 30°C & 80% RH	240 W
Working interval	2-35°C
Tank volume	11,4 liter
Fan speeds	1
Dimensions LxWxH	460x345x580
Dimensions incl. box LxWxH	570x378x640
Weight	19,5 kg
Weight (incl. box)	22 kg
Sound level dB (A)	45
Cooling media	R290
Gas	99g
IP Rating	IP-X1
EAN	7332857502035
