

# Dehumidifier LD40Pro

# Wood's®

## Energy-smart drying room dehumidifier for shared laundry rooms - Made in Sweden

### Highest capacity and best energy efficiency for fast drying of laundry in common areas

The LD40Pro is the drying room dehumidifier that combines the best drying effect, highest capacity, and airflow with optimal heating effect, for fast and energy-efficient drying of laundry. For every litre of water vapour, you get 780W in heating power - the laundry is dried completely while the space is dehumidified. The LD40Pro is an obvious choice for property owners and shared laundry rooms.

### Easy setting with manual knob

The LD40Pro is easily set to the desired effect and humidity level. By turning the knob, you select the desired level of humidity. The LD40Pro also automatically shuts off when the level is reached - and restarts when the humidity increases.

### The laundry dries energy-efficiently and quickly, while the entire basement is dehumidified

LD40Pro is much more than a dehumidifier - it dries the laundry completely, by efficiently taking advantage of the heat generated in the dehumidification process. Drying the laundry with a dehumidifier effectively counteracts the appearance of mould, odours and mites in the basement, drying room, or laundry room. All LD models are designed to operate, "whisper quiet" (48-55 dB) on their low fan setting.

### Swedish quality with 10 year guarantee

All dehumidifiers in the LD series are sturdy and durable, plus have a 10-year guarantee, provided that the filter is changed annually.

- Best choice for property owners and shared laundry rooms
- Specially adapted for cost-effective drying of laundry
- Dehumidifies the entire laundry room or basement
- Dries laundry quickly and efficiently
- Adjustable exhaust directs the hot air
- Features an auto-restart function to previous settings in the event of a power cut
- Easy to connect to a hose (connector for 1/2" hose included)
- Removable 11.4 litre tank with convenient handle
- Made in Sweden from recyclable material
- Robust wheels for easy mobility
- 10 year warranty
- Environmentally friendly refrigerant R290
- Smart defrost with i-EcoDefrost
- Operating temperature range + 2°C to + 35°C
- Quiet operation (48-55 dB) on low fan setting
- Energy efficient
- IP-X1 Rating

Specification	LD40Pro
Max. working area	180m <sup>2</sup>
Recommended area	10-180m <sup>2</sup>
Airflow step 1	300 m <sup>3</sup> /h
Capacity at 20°& 70%RH	16 liter
Capacity at 30°& 80%RH	31 liter
Power at 20°C & 70% RH	450 W
Power at 30°C & 80% RH	630 W
Working interval	2-35°C
Tank volume	11,4 liter
Fan speeds	1
Dimensions LxWxH	460×345×580
Dimensions inkl. box LxWxH	570×378×640
Weight	25 kg
Weight (incl. box)	27,5 kg
Sound level dB (A)	60
Cooling media	R290
Gas	130g
IP Rating	IP-X1
EAN	7332857502028
